## Alternative Fueled Truck Conference

The New Jersey Clean Cities Coalition and the Mid-Atlantic Truck Centre are proud to announce an **Alternate Fuel Truck Conference**. This **May 19** event will be the first of its kind in this region and will feature vehicle displays, a "Ride and Drive", and nationally recognized speakers focusing on: compressed natural gas, diesel/electric hybrids, biodiesel fuel and mandatory Diesel Retrofit Technologies that are available to assure compliance with state and federal emissions and engine regulations. Mr. Mark Smith, Vehicle Technology Deployment Manager at the US Department of Energy, will provide opening remarks. Among the vehicles to be displayed will be:

CNG International WorkStar with ESI engines

International Eaton Diesel/Electric Hybrid

The event will start with coffee and networking at 8:30 AM. The conference will kick off at 9:00 and run through 11:30, followed by lunch and the vehicle presentation and Ride and Drive. We'll wrap up by 2:00 PM.

We are very excited to present this information at a time when the interest in, the need for, and the availability of, alternative fuel technologies are at an all time high.

Please RSVP to [chuck.feinberg@gmail.com](mailto:chuck.feinberg@gmail.com)

A limited amount of exhibit space is available in the conference room for sponsors. If you are interested in sponsoring, please let us know.
