

and

invite you to join us and celebrate.

Camden CNG Fueling Station Grand Opening

Wed., June 8, 2011
11:00 AM - 12:15 PM

Waste Management of New Jersey and PetroCard cordially invite you to the grand opening of the new Clean N'Green™ Compressed Natural Gas Fueling Station in Camden.

This new facility is the first public CNG station in Camden and serves Waste Management's growing fleet of CNG powered collection trucks as well as other municipal and private fleet vehicles in the region. Natural gas is a cleaner, more efficient, domestically sourced transportation fuel that significantly reduces emissions and improves air quality.

We hope you will join us as we demonstrate this advanced facility, share information on the environmental and economic benefits of CNG, and showcase several CNG fueled vehicles.

Funding assistance for this station was provided through the New Jersey Clean Cities Coalition.

Wednesday, June 8, 2011
